

RESIDENCY PROGRAM 2022

SISTAR- RELACIONS GEOLÒGIQUES D'AMOR

HORT-ART

This is an open invitation addressed to performing arts professionals to participate in the Relacions Geològiques d'Amor 2022 artistic residency program, which investigates the relationship between the body performing arts and the environment. The project is organized by the Hort-Art association with the sponsorship of the Resident Culture program of Consorci Museus de la Generalitat Valenciana, Institut Valencià de Cultura and Ajuntament de Faura.

In this edition, under the motto SISTAR, we enter the agricultural environment of Faura, in the Vall de Segó, exploring it, occupying it and reviving "uncultivated" orange orchards with interventions that enable reflection, mobilization and action of the artists and the community that welcomes them.

The project offers a non-neutral artistic research residence format, which is strongly anchored in research and experimentation work, based on horizontality, exchange of practices and self-training. In this immersive experience, each selected project will be assigned an open space in an orange orchard, where their practices will be developed.
